

Tribute films for the families you care for

White-label trade price list — present it as your own. Delivered before the service: no software, no editing, no staff time.

We craft beautifully edited tribute films from a family's photographs and home videos — done for you, under your name. Your arranger forwards a link; a finished, crematorium-ready film comes back before the service.

Why offer this?

- Crematoria typically charge families up to around **£90 for a basic, pictures-only slideshow** — usually capped at 25–35 photos, shown only at the service, and the funeral home earns nothing on it.
- Specialist studios charge families **£195–280** for a proper tribute film.
- Ours are yours to price and mark up — from a £35 unlimited-photo slideshow to a full cinematic film with home video and licensed music — and you keep a healthy margin on every funeral.

Our trade prices

SLIDESHOW

silent — priced to say yes

£35

trade price to you

The easiest way to win the family who would otherwise settle for the crematorium's basic slideshow — a richer photo tribute for less.

- ✓ **As many photos as you like** — no 25–35 photo cap
- ✓ **Silent by design** — play the family's own song live over it at the service, or loop it at the funeral tea
- ✓ No music licensing, **no copyright risk**, no charge for extra photos — MP4 for the family to keep
- ✓ A pure photo tribute; step up to **Standard** for a professionally edited video with home clips, cuts and template designs

How it works

1

Send us the photos

Your arranger forwards our upload link to the family — they add photos and clips from their phone. That is all you do.

2

Family approves a preview

We edit and send a private preview link. Changes are free. Nothing plays on the day unseen.

3

Delivered before the service

With 48 hours' notice, guaranteed before the service in the format UK crematoria accept — or it is free.

Our promises to you

- **Before the service with 48 hours' notice, or it's free.** Standard turnaround is 48–72 hours; same-day express is available.
- **Free re-edits.** A wrong photo, a spelling fix, a different song — changed without question, inside the timeline.
- **It will play.** Every film is delivered in the exact format UK crematorium systems accept — the Obitus and Wesley Media family-supplied video spec, full-HD 16:9 — ready to upload straight to your venue's screen; portrait screens matched on request.
- **Discretion and care.** Family photos are treated as strictly confidential and deleted after delivery unless the family asks us to keep them.
- **Music, done properly — and no copyright risk to you.** Tribute films (Standard and up) are scored with fully licensed music, cleared for the family to keep, share and post anywhere. The £35 Slideshow is deliberately silent, so the crematorium can play the family's own meaningful song live over it at the service, or it loops quietly at the funeral tea — the exact song, no licensing headache for you or them.
